Those on Attached List:

TRANSMITTAL OF DATA FOR SCREENING ASSESSMENT. VOLUME II: APPENDICES. COLUMBIA RIVER COMPREHENSIVE IMPACT ASSESSMENT (CRCIA). DOE/RL-96-16-c. REVISION 1. UC-630, APRIL 1997

Attached is a copy of the revised subject document that the U.S. Department of Energy, Richland Operations Office (RL), provided for your review in June 1996.

The subject document contains the raw data files, maps of sampling locations with coordinates, and plots of raw data which also show the maximum representative values used in the screening assessments of potential risk to human health and the environment. This document was revised based on the comments received in June 1996 during the review of Data for the Screening Assessment: Columbia River Comprehensive Impact Assessment, DOE/RL-96-16-c, Revision 0, UC-630, Draft, June 1996. Volume I of the Data report has been incorporated into the draft document that you should have received recently entitled "Screening Assessment and Requirements for a Comprehensive Assessment: Columbia River Comprehensive Impact Assessment," DOE/RL-96-16, Revision 0, UC-630, May 1997. The subject document is being provided to you as reference material.

If you want to discuss this matter further or require additional information, please contact me at (509) 376-6192.

Sincerely,

*Robert K. (Bob) Stewart*

Robert K. Stewart, Project Manager
